I am a Senior Software Developer with over 4 years of experience building Web and Mobile Applications. Passionate about software innovation, I specialize in JavaScript technologies like React, Next.js, and Angular, along with back-end development using Node.js, Express.js, NestJS, and GraphQL.
I also have extensive expertise in PHP (CodeIgniter), SQL (MySQL, PostgreSQL, SQLite, Oracle), and NoSQL databases (MongoDB, Mongoose). I am experienced in developing REST APIs and documenting them with Swagger. On the mobile front, I create cross-platform apps using Flutter and Dart, and I'm familiar with Android Studio for native Android development. Additionally, I have a strong foundation in Data Structures and Algorithms.
